Summary

TOTAL 1.4+ YEARS OF STARTUP EXPERIENCE IN DIVERSE DOMAINS AND TECHNOLOGIES.

I possess very good programming skills as well as the ability to develop multiple logics for solutions. Using any particular programming language has never been a bar for me yet my area of expertise are Java programming languages and JavaScript

Have been an average+ student throughout my academics and taking part in co-curricular activities since schools. Some of my favorite leisure activities are problem solving and playing badminton activities.

Experience

o **Software Developer @ Crisp Analytics Pvt. Ltd, Noida**   **June 2015- Oct 2016**

   - Working as a Data processing layer , delving into intelligent data analysis, data processing, and visualisation, on a daily basis.
